

INTRODUCTION TO THE ENNEAGRAM

Saturday, January 27, 2018 • 10 am - 4 pm

\$50

The Enneagram is an easy to learn yet comprehensive tool for understanding our unique personality. The nine pointed Enneagram symbol represents 9 personality types each with its own world view, own unique way communicating, problem solving and relating. Each Type also has unique gifts and stumbling blocks. While they have much in common, each Type has its own set of behaviors and attitudes, reactions and defenses. Each Type has its own Personality. It is as if we all speak nine different languages. Imagine how much better our families, our relationships, our business encounters, our churches and communities and even our politics would be if we could find a way to clearly understand one another's language! The Enneagram is just such a tool. It helps us see through more than our own lens and in doing so our ability for understanding and compassion grow. In this workshop we can learn how to improve communication, enhance our relationships and unlock the secrets to why we behave the way we do. This will lead us to develop more compassion for ourselves and for others.

This one-day Introduction to the Enneagram might just change your life, your relationships and the way you look at the world.
