

Comprehensive Outpatient Program for Eating Disorders at AC4W

PRESENCE WITH A PURPOSE

Thursdays 4:15-5:15pm
\$75 per group

Presence with a Purpose is designed to encourage participants to question themselves with curiosity and without judgment beyond who they are with their eating disorder. While identifying the function of the eating disorder may be important- it is imperative that individuals begin to reclaim and strengthen their identity outside of the borders of the eating disorder. The group will support participants in self exploration as well as goal setting while determining specific direction steps they can take on their journey towards recovery.
